

Session 3.7: Control of Planetary Rovers

Autonomous Operations of a Micro-Rover for Geo-Science on Mars

3.7-1

Fontaine, B.; Termont, D.*; Steinicke, L.*; Pollefeys, M.**; Vergauwen, M.**;
Moreas, R.***; Xu, F.***; Landzettel, K.****; Steinmetz, M.****; Brunner, B.****;
Michaelis, H.+; Behnke, T.+; Dequeker, R.++; Degezelle, P.++; Bertrand, R.+++;
Visentin, G.++++, *Space Applications Services, Belgium; **Katholieke Universiteit Leuven
ESAT, Belgium; ***Katholieke Universiteit Leuven - PMA, Belgium; ****DLR - Institute of
Robotics
and Mechatronics, Germany; +DLR - Institute of Space Sensor Technology and Planetary
Exploration,
Germany; ++OptiDrive, Belgium; +++von Hoerner & Sulger GmbH, Germany;
++++ ESA/ESTEC, The Netherlands*

Autonomous Long Range Navigation in Planetary-Like Environments

3.7-2

*Lacroix, S.; Mallet, A.; Bonnafoos, D.; Fleury, S.; di Marco, M.; Chatila, R.;
LAAS/CNRS, France*

Autonomous Navigation Ability: FIDO Tests Results

3.7-3

Maurette, M.; Baumgartner, E.T.**; **CNES, France; ** NASA JPL*
